#### Additional Information:

##### Notice to applicants

**1. Method of calculating indirect costs:** The Commission has decided to extend the possibility of using the specific flat rate of 60% for indirect costs, (applicable under certain conditions to non-profit bodies, education establishments, research organisations and SMEs) for the entire duration of FP7. The cut-off date for this rate (1/1/2010), mentioned in annex 3 to the Guide for applicants, is therefore no longer applicable.

**2. Audits of ongoing projects:** The following paragraph should be inserted at the end of chapter 5 of the Guide for Applicants ("What happens next"):

*Applicants are reminded that the Commission's Research DGs have adopted a new and reinforced audit strategy aimed at detecting and correcting errors in cost claims submitted in projects on the basis of professional standards. As a result the number of audits and participants audited will increase significantly and the Commission's services will assure appropriate mutual exchange of information within its relevant internal departments. They will fully coordinate any corrective actions to be taken in a consistent way. More information can be found here:*
