

The international network NET4SOCIETY invites researchers and stakeholders involved in the Socio-economic Sciences and Humanities (SSH) to the networking event

„SSH Goes Global“.

The event will take place on 21 September 2010 in Istanbul, Turkey, and will be organized in cooperation with the European Commission.

The main aim of this SSH networking event is to provide first-hand information by the European Commission about the upcoming call for proposals FP7-SSH-2011, to be launched in summer 2010, and to bring SSH researchers and stakeholders (universities, research institutions, civil society organizations and SMEs) together to meet both potential coordinators and potential project partners in a fruitful networking environment.

This event gives you the unique opportunity to build consortia for the next Socio-economic Sciences and Humanities call in FP7.

The event will especially focus on topics related to the general research fields of “Combating poverty in an international context” and “The European Union and its relations to the world”.

Participation is free of charge. For detailed information about registration and the agenda of the event, please visit the event webpage: www.b2match.com/sshgoesglobal.
