

## Obligatory scheme for applied research and development

Obligatory scheme length is limited to 20 pages

|                             |  |
|-----------------------------|--|
| Project title               |  |
| Principal investigator      |  |
| Applicant organisation      |  |
| Statutory representative(s) |  |

### 1. Timeliness of the project and the applicability of the research results and implementation procedures

- Specify the timeliness of the project aims and objectives with regard to the application field of science and technology on an international scale
- Specify the timeliness of the suggested procedures and the application level of the expected results
- Specify the project aims and objectives and the feasibility of your aims and objectives
- Describe the suggested methodology for the project implementation, justify it and specify its ability to meet the set aims and objectives

Free text:

### 2. Original and innovative character of the project, the importance of the project's results for the given field of research and development and the utilisation rate

- Specify the originality of the project
- Specify project benefits to a progress of innovations (new products, improved products, new utility material, new technologies, new services, etc.)
- Describe the manner and extent of the utilisation of the declared project's results by the applicant/a user both in the Slovak Republic and abroad
- Specify economic benefits (enhancement of added value, resource savings, impact on unemployment rate, utilisation of domestic raw material, human resource development, environmental protection)

Free text:

### 3. The structure of the project, the quality of preparation, the logical interconnection of the implementation procedures

- Specify the timetable for the project implementation taking into account the logical interconnection of the implementation procedures and meeting of the declared aims and objectives

- Describe the adequacy and the implementation and research level of the project implementation methodology
- Explain the adequacy of the proposed project budget according to financial demands of accomplishing project goals
- Specify the feasibility of achieving the set aims and objectives and the implementation outputs in the case of using the described procedures

Free text:

#### **5. Professional qualifications of the research team**

- Describe the competence of the participating research and implementing organisations with regard to the submitted project
- Describe the competence of individual researchers with regard to the project submitted (excluding the principal investigator)
- Describe the manner of co-operation of researchers and their potential contribution to the successful project implementation
- Describe technical and personnel infrastructure of the workplaces participating in the project implementation
- Specify the level of engagement of young researchers from the field of research and development up to 35 years old including postgraduate students in the project implementation
