

CONSOLIDATED VERSION OF THE PUBLIC CALL

The Slovak Research and Development Agency (hereinafter referred to as the "agency" or "SRDA") in accordance with Act No. 172/2005 Coll. on the Organization of State Support for Research and Development and with the amendment of Act No. 575/2001 Coll. on Organization of the Government Activities and the Organization of the Central State Administration (hereinafter referred to as Act No. 172/2005 Coll. as amended), and in accordance with the Agreement between the Government of the Slovak Republic and the Government of the Czech Republic on Scientific and Technical Cooperation, signed on May 27th, 1999 in Prague

o p e n s

public call for submitting applications for joint projects research and development (hereinafter referred to as "application") supporting cooperation between organizations in the Slovak Republic and the Czech Republic pursuant to § 12 sect. 2 point c) of Act no. 172/2005 Coll. as amended denoted as SK-CZ RD 2021

Intentions and Objectives of the Public Call

The public call SK -CZ RD 2021 has the following priority, which aims to take into account the common interest of the Slovak Republic and the Czech Republic expressed in the Work Plan for the support of Slovakia - Czech joint projects for the years 2022 - 2025:

1. Information and communication technologies
2. Biomedicine and medical biotechnology
3. Materials research and nanotechnology

In the submitted project, the applicant shall indicate the field of science and technology the application falls into. Applications may be submitted by Slovak legal entities and Slovak natural persons - entrepreneurs without any limitation of their membership in the research and development sector.

Definition of Basic Terms

- **The Research and development project** is a set of intentions, objectives and planned time-bound R & D activities in the content-defined field of science and technology. The R & D project includes data on the personnel, material, instrumental and financial conditions needed for its solution.
- The research and development **project solution** is the implementation of planned activities and measures, and thus the implementation of the project's intentions and objectives.
- **Applicant** is a Slovak legal entity or a Slovak natural person - an entrepreneur who holds valid certificate of competence to carry out research and development under § 26a sect. 11 or 12 of Act No. 172/2005 Coll. as amended, and who is submitting an application for funds to solve the Project. The project for which the applicant requests funds comprises a part of the application.
- **Recipient** is a Slovak legal entity or a Slovak natural person - an entrepreneur who holds a valid certificate of competence to carry out research and development under § 26a sect. 11 or 12 of Act No. 172/2005 Coll. as amended, and which has been allocated funds from the state budget for the project solution. The recipient is responsible for managing these funds.

- **Co-recipient** is a Slovak legal entity or a Slovak natural person – an entrepreneur who holds a valid certificate of competence to carry out research and development under § 26a sect. 11 or 12 of Act No. 172/2005 Coll. as amended and is a co-investigator. The co-recipient shall be paid funds from the state budget by a recipient in order to deal with the project part based on a specific contract on project. The applicant shall state the list of co-recipient in the application. The scope of activities conducted by co-recipient is an integral part of the project.
- **Partner organisation** is an eligible scientific and research institution that submits a research and development project on the partner side and which will solve the project in cooperation with the recipient.
- **Slovak legal entity** is a legal person established under the Slovak legal order with the registered seat in the Slovak Republic.
- **Slovak natural person - entrepreneur** means an entrepreneur authorised to conduct business in the Slovak Republic with a place of business in the Slovak Republic.
- **Provider - SRDA** is an institution that decides on providing state budget to support research and development to the applicant.
- **Principal investigator** is a person responsible for the project solving and for the effective use of the funds granted for its solution.

Requirements for the Public Call

1. The projects may be of basic research, applied research or development as defined in § 2 sect. 2, 3, 4 of Act No. 172/2005 Coll. as amended. The character of the project's solution is clearly defined in the application by the applicant. The project proposal cannot be of a mixed character. Different assessment criteria will be used for basic research projects and applied research and development projects.
2. The cooperating partners from the research and development organisations on both sides shall jointly develop content-identical projects.
3. Under § 18 sect. 2 point f) of Act No. 172/2005 Coll. as amended, an integral part of the application shall be the declaration of honour by the applicant and co-investigators stating that they have a valid certificate of research and development competence. In case the applicant or/and co-investigators do not have the mentioned certificate, their application shall be refused.
4. Under § 18 sect. 2 point g) of Act No. 172/2005 Coll. as amended, in case of the projects indicating direct application of their solution in practice, original or officially certified copy of the letter of intent on application of the project findings in practice **between the applicant and each purchaser** of the project findings comprise an integral part of the application, referred to in RD-B 03 of the application.
5. An copy of the letter of intent on mutual cooperation between the applicant and the partner organisation shall be an integral part of the application.

Specific Conditions for a Public Call

1. The total amount of funding allocated for the whole project period and assessment supported in this call shall amount to **EUR 840 000** in maximum.
2. The project funding is subject to the approval of the required amount of the state budget funds for the agency within the state budget of the SR by the National Council of the Slovak Republic, and subsequently to their subdivision from the chapter of the Ministry of Education and Research of SR for the Agency.
3. The total amount of funds provided by the agency to solve one project is limited to a maximum of **EUR 1200 000** for the whole project duration and. The funds will be provided

exclusively to the applicant with respect to the financial burden of achieving the project objectives.

4. One natural person may be the principal investigator in the given call only in one submitted application. In case of submitting multiple applications with the same principal investigator, the agency shall cancel all such applications as illegible from further assessment. A principal investigator is person having an employment relationship with the applicant.
5. The research capacity of any researcher must not exceed 2,000 hours in total per year for projects solution at the same time, regardless of the source of support granted, and/or the project funds provider.
6. The SK-CZ RD 2021 call is limiting the planned minimum annual research capacity of 300 hours for a nominal member of the research team and 500 hours for the principal investigator. In case a research team member participates in the project solution only during a part of the calendar year, the planned maximum annual capacity is limited proportionally to the number of months of participation of the research team member in the project solution in the given calendar year.
7. The principal investigator must be registered in one of the listed scientific databases (WoS - Web of Science, Scopus or ORCID) and have his unique identifier in one of these databases. This information shall be provided in the application submitted. Failure to comply with this condition results in the withdrawal of the application.
8. The applicant notes that in relation to investigators he is required to comply with the Regulation No. 679/2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data (General Data Protection Regulation) and the Act No. 18/2018 Coll. on personal data protection as amended (hereinafter referred to as Act on Data Protection). The applicant acknowledges that the processing of personal data of investigators by the Agency is necessary in accordance with § 18 of the Act No. 172/2005 Coll. as amended. The Agency will In accordance with the above mentioned provision and pursuant to § 13 par. 1 letter c) of the Act on Data Protection process personal data of investigators to the extent defined in the application (Annex 4, Annex 5 and Annex 6 of the Public Call). In the case of concluding a funding agreement, to which the applicant will be a party, the processing of these personal data of the investigators by the Agency is necessary for the performance of this agreement pursuant to § 13 par. 1 letter b) of the Act on Data Protection.
9. In this call, the agency does not provide any capital funds for procurement of tangible and intangible assets.
10. Indirect costs associated with a project solution financed by the agency's funds shall not exceed 20% of the total costs of the project solution **provided** by the agency in each financial year.
11. For non-business entities, the agency may provide funding for basic, applied research and development up to 100% of the costs.
12. For business entities, the agency's funding is governed by the research and development support framework by the Slovak research and development agency (the State aid scheme) as given by Appendix 1 (the State aid scheme SA.58654).
13. The applicant - a non-business entity - may not provide any indirect state aid. No action is considered to be an indirect state aid - if for the co-recipient (business entities) at least one of the following conditions (according to para. 28 of the Framework for state aid for research, development and innovation - 2014 / C 198/01) are fulfilled:
 - a) the participating enterprise shall bear the total costs of the given project, or
 - b) the results of cooperation which do not give any rise to creation of intellectual property rights may be widely disseminated, and any intellectual property rights resulting from the activities of the recipient's research organisation shall be fully allocated to the recipient; or

- c) any intellectual property rights resulting from a project as well as the relevant access rights are allocated to the participating enterprise in a manner that adequately reflects its work packages, contributions and relevant interests; or
 - d) the research organisation/recipient receives, for the intellectual property rights resulting from its activities and have been transferred to the participating enterprise or to which the participating enterprise has obtained the access rights, a compensation corresponding to the market price. Absolute amount of any financial or non-financial contribution of the participating enterprise to the costs associated with the activities of the research organisation/recipient resulting in the respective intellectual property rights, may be deducted from this compensation.
14. The principal investigator of any project funded by the agency, which received a "insufficient level of project solving" after completing project solution of the public call, cannot be the principal investigator in any application submitted within the agency's public calls for the given year and for further 3 calendar years from the year in which the final project assessment report was delivered by the agency to the recipient and to the principal investigator. Non-fulfilment of the condition results in the refusal of application.
15. If the funding agreement was terminated by the SRDA by withdrawal, termination, or the decision on suspending project funding because of the recipient's breach of obligations set under the agreement, the principal investigator of such project cannot be the principal investigator in any applications submitted within the agency's public calls for a given year and for further period of 3 calendar years from the date of such termination, withdrawal or decision on suspending the project funding. Non-fulfilment of the condition results in the refusal of application.

Submission of Applications

Term for submitting the applications are from 04 October 2021 to 06 December 2021.

Applications shall be submitted electronically only through the electronic application system available on the agency's website www.apvv.sk. The electronic application system will be closed on **06 December 2021 at 12.00 a.m.** The agency does not guarantee successful submission of the electronic forms via electronic application system in case of the system overloading or sending an electronic version of the application in the last hours before closing the system. In this case, the applicant assumes full responsibility for such unsuccessful submission of electronic version of the application. **Only the required sections applications** generated by the system shall be submitted in their paper forms enclosed in annex No.1 of Consolidated version of the public call. The applicant is obliged to deliver the required application sections within the stated period **up to 06th December 2021** at the latest to the agency address (Slovak Research and Development Agency, Mýtna 23, P..BOX 839 04, 839 04 Bratislava 32). The deadline for submitting the applications is retained if the application is submitted on the last day of the deadline to the authority responsible for its delivering.

The agency will only include those applications in the evaluation process which simultaneously meet all three of the following criteria:

- a) application is submitted through an electronic submission system for project applications,
- b) application must be submitted and subsequently assessed simultaneously on both the Slovak and the partner's side. On the Slovak side, the Slovak applicant applies to the agency, and a partner organisation submits the application according to the instructions of the organisation that opens the calls in a partner country.
- c) application meets all the conditions of the public call SK-CZ RD 2021.

Project Duration

The expected launch of the project solution is 01 July 2022. Duration of the project cannot exceed 36 months.

Assessment of Applications

When assessing the applications, the agency shall proceed in accordance with § 19 of Act No. 172/2005 Coll. as amended. Technical and formal terms of the application are set out in annex 1 of Consolidated version of the public call. The assessment procedure and the assessment criteria are set out in annex 2 of Consolidated version of the public call.

Disclosure of Decisions on Applications

Decisions on non-compliance with the technical and formal conditions under § 19 sect. 1 of Act No. 172/2005 Coll. as amended shall be notified by the SRDA to all applicants.

Decisions on applications under of Act No. 172/2005 Coll. as amended shall be published by the agency via its webpage www.apvv.sk. The webpage is also to publish the information on all applications to the following extent: application number, project title, applicant, principal investigator and decision on grant. In case of decision on not funding the name of principal investigator is not stated.

Business entities shall be invited to submit applications for providing non-repayable financial contribution including required attachments within the State aid scheme SA. 49175 and the agency shall set the deadline for delivery. After assessment of applications for non-repayable financial contribution, the agency shall decide on providing or non-providing state aid to solve the projects of the applicants – business entities.

Granting the Funds

The project funding is provided to the recipient by the agency on the basis of a written project funding agreement. The agency shall provide the applicant with funds to solve the project to the account specified in the project funding agreement, as soon as possible as from the date the contract is signed. Signing of the project funding agreement is conditioned by submitting an updated project under the funding conditions specified in the application assessment report or other terms of the agency.

Annexes

The following annexes comprise part to the public call:

Annex 1: Technical and formal conditions

Annex 2: Assessment procedure and assessment criteria

Annex 3: Budgeting principles

Annex 4: Basic research application form template
(Application form and material intent)

Annex 5: Applied research application form template
(Application form and material intent)

Annex 6: Template of application for development
(Application form and material intent)

Annex 7: Recommended template of the Letter of intent on use of the project findings

Annex 8: Template of the Letter of mutual intent to cooperate

Annex 9: Project electronic application system manual
